

Year 11

Exams 2023

Your 8 Week Countdown

"You can perform miracles by touching the hearts of those entrusted to your care."

How to use this booklet

All of your teachers have listened to everything the exam boards have said about each paper, in each subject you are studying.

Each subject department have then put together this revision schedule based on this knowledge, and their expert knowledge of how best to prepare for your unique exam series.

Further using this knowledge, each specific subject has put together a revision schedule in preparation for your exam in 8 weeks' time. You will find a week-by-week guide as to what particular topic to revise, with specific features to focus on and also other suggested activities.

Included in this document are signposts of how to revise for each subject and where to go for help if you are struggling.

Follow this schedule week by week – handing in anything you complete to your teachers for checking – and you will be 100% ready for whatever appears on those exam papers in the Summer.

Your Year team, form tutors and class teachers are around to support you – so please talk to any of us if there is something that you are struggling with.

Keep going – I know it seems tough and never ending, but all your efforts will be worth it in the end.

"You can perform miracles by touching the hearts of those entrusted to your care."

Religious Education

All resources mentioned are either on Microsoft Teams or have been given to you in class. Complete the tasks each week for the selected topic and show your teacher to gain feedback and to make sure you are getting it right!

Year 11 GCSE Revision 2023			
Week beginning	Topics for revision	Re-visit work	Suggested activities
20 th March 2023	Identifying questions & Key words	<ul style="list-style-type: none"> • Key words from Catholic Christianity Paper • Key words from Judaism paper • Key words from Philosophy and ethics paper. • Use Audio to revisit keywords • How to de-code GCSE questions 	<ul style="list-style-type: none"> • Make a list of top 10 keywords for each topic. • Go through your practice questions and highlight questions that you would struggle to answer. • Use your Personalised Learning Checklists (PLC) to identify key topics you will need to focus your revision on. • Try to decode some GCSE questions using Command word, Topic and Focus. • Have a look at Mr McMillan's strategies for how to revise: (270) How To Revise (1 of 5) Regular Revision Strategies by MrMcMillanREvis - YouTube

Year 11 GCSE Revision 2023			
Week beginning	Topics for revision	Re-visit work	Suggested activities
20 th March 2023	Romeo and Juliet	Revise the key themes of love and the characters of Romeo and Juliet	See the folder on Edulink called ROMEO AND JULIET for resources, including notes on each character / theme with key quotes selected for you and analysed. Create a mindmap for each character/theme or a set of flash cards to help you learn the key information. Read your mindmap/flash cards and then try to recreate the key information from memory. You could make use of Mr Bruff's videos on his Youtube channel if this helps, or the resources on BBC Bitesize. Look at the past papers in the revision folder and plan an answer to whichever one you would find most challenging.
	English Language Paper 1 Section A Questions 3 and 4	Practise the skills needed for question 3 and question 4	Go on Edunlink and find the folder called ENGLISH LANGUAGE PAPER 1 PAST PAPERS. Complete the paper on Rosabel (or another if you have already done this). Read the extract and then attempt question 3 and question 4 only. Use the Power Point guidance to help you. Time yourself. Give yourself 12 mins to complete question 3 and 20 mins to complete question 4. Use the mark scheme and model answer to assess your work.
27 th March 2023	Romeo and Juliet	Revise the key themes of conflict and fate and the characters Capulet and	See the folder on Edulink called ROMEO AND JULIET for resources, including notes on each character / theme with key quotes selected for you and analysed. Create a mindmap for each character/theme or a set of flash cards to help you learn the key information. Read your mindmap/flash cards and then try to recreate the key information from memory.

"You can perform miracles by touching the hearts of those entrusted to your care."

			<p>You could make use of Mr Bruff's videos on his Youtube channel if this helps, or the resources on BBC Bitesize. Look at the past papers in the revision folder and plan an answer to whichever one you would find most challenging.</p>
	English Language Paper 1 Section B Question 5	Create a character that you can 'drop' into any question 5 prompt in the exam.	<p>Go on Edunlink and find the folder called ENGLISH LANGUAGE PAPER 1 CREATING A CHARACTER. Work through the workbook. Create a character that you can 'drop' into any story prompt/description that comes up in the exam. Think carefully about how to describe your character – try to give your reader clues about how to feel about your character through the choices you make about how they look/behave/move. Give your character a flashback. Use the PP in the folder to help you.</p>
3 rd April 2023	The Sign of Four	Revise the key characters of Holmes and Watson. Revise the detective genre/police	<p>See the folder on Edulink called THE SIGN OF FOUR for resources, including notes on each character / theme with key quotes selected for you and analysed. Create a mindmap for each character/theme or a set of flash cards to help you learn the key information. Read your mindmap/flash cards and then try to recreate the key information from memory. You could make use of Mr Bruff's videos on his Youtube channel if this helps, or the resources on BBC Bitesize. Look at the past papers in the revision folder and plan an answer to whichever one you would find most challenging.</p>
	English Language Paper 2 Section A Questions 2 and 4	Attempt two questions from a past paper to develop the skills needed for the more challenging questions.	<p>Look at the ENGLISH LANGUAGE PAPER 2 folder on Edulink. Choose any past paper and attempt questions 2 and 4. Allow yourself 12 mins for question 2 and 20 minutes for question 4. Use the Power Point guidance to help you. Use the mark scheme and model answer to assess your work.</p>

	English Language Paper 1 Section B Question 5	Revise the character you have created to 'drop' into the story prompt/description in the exam.	Look over the notes you have created on your character. Get to know your character well. Refine your notes so that you have a bank of five ambitious words to describe your character's appearance/behaviour. Now attempt a past paper. Use the Power Point in the folder to help you to structure your answer. Try to include literary techniques such as pathetic fallacy / cyclical structure to show that you are thinking carefully about how to interest your reader. Allow yourself 45 minutes for this.
10 th April 2023	The Sign of Four	Revise the minor characters of Morstan, Sholto, Small, Jones and Tonga. Revise the theme of justice/injustice.	See the folder on Edulink called THE SIGN OF FOUR for resources, including notes on each character / theme with key quotes selected for you and analysed. Create a mindmap for each character/theme or a set of flash cards to help you learn the key information. Read your mindmap/flash cards and then try to recreate the key information from memory. You could make use of Mr Bruff's videos on his Youtube channel if this helps, or the resources on BBC Bitesize. Look at the past papers in the revision folder and plan an answer to whichever one you would find most challenging.
	English Language Paper 2 Section B Question 5	Attempt a past question	Look on Edunlink for a folder called ENGLISH LANGUAGE PAPER 2. Attempt a Section B past paper. Use the PP and resources in the folder to help you. Mark your work using the mark scheme and model answers to guide you.
17 th April 2023	An Inspector Calls	Revise the key characters of Mr Birling, Mrs Birling and Gerald. Revise the key theme of social responsibility.	See the folder on Edulink called AN INSPECTOR CALLS for resources, including notes on each character / theme with key quotes selected for you and analysed. Create a mindmap for each character/theme or a set of flash cards to help you learn the key information. Read your mindmap/flash cards and then try to recreate the key information from memory. You could make use of Mr Bruff's videos on his Youtube channel if this helps, or the resources on BBC Bitesize. Look at the past papers in the revision folder and plan an answer to whichever one you would find most challenging.

	Poetry – Remains, Kamikaze, Poppies, Bayonet Charge	Learn the ‘story’ of each poem, structural features and one or two key quotes.	See the folder on Edulink called POETRY ANTHOLOGY for resources, including notes on each poem with key quotes selected for you and analysed. Create a mindmap for each poem or a set of flash cards to help you learn the key information. Read your mindmap/flash cards and then try to recreate the key information from memory. You could make use of Mr Bruff’s videos on his Youtube channel if this helps, or the resources on BBC Bitesize. Look at the past papers in the revision folder and plan an answer to whichever one you would find most challenging.
24 th April 2023	An Inspector Calls	Revise the key characters of Sheila, Eric and the Inspector. Revise the key theme of social responsibility.	See the folder on Edulink called AN INSPECTOR CALLS for resources, including notes on each character / theme with key quotes selected for you and analysed. Create a mindmap for each character/theme or a set of flash cards to help you learn the key information. Read your mindmap/flash cards and then try to recreate the key information from memory. You could make use of Mr Bruff’s videos on his Youtube channel if this helps, or the resources on BBC Bitesize. Look at the past papers in the revision folder and plan an answer to whichever one you would find most challenging.
	Poetry – Exposure, Charge of the Light Brigade, Ozymandias, My Last Duchess	Learn the ‘story’ of each poem, structural features and one or two key quotes.	See the folder on Edulink called POETRY ANTHOLOGY for resources, including notes on each poem with key quotes selected for you and analysed. Create a mindmap for each poem or a set of flash cards to help you learn the key information. Read your mindmap/flash cards and then try to recreate the key information from memory. You could make use of Mr Bruff’s videos on his Youtube channel if this helps, or the resources on BBC Bitesize. Look at the past papers in the revision folder and plan an answer to whichever one you would find most challenging.
1 st May 2023	Poetry – The Prelude, Checking Out Me History, The Emigree, Tissue	Learn the ‘story’ of each poem, structural features and one or two key quotes.	See the folder on Edulink called POETRY ANTHOLOGY for resources, including notes on each poem with key quotes selected for you and analysed. Create a mindmap for each poem or a set of flash cards to help you learn the key information. Read your mindmap/flash cards and then try to recreate the key information from memory. You could make use of Mr Bruff’s videos on his Youtube channel if this helps, or the resources on BBC Bitesize. Look at the past papers in the revision folder and plan an answer to whichever one you would find most challenging.

“You can perform miracles by touching the hearts of those entrusted to your care.”

			resources on BBC Bitesize. Look at the past papers in the revision folder and plan an answer to whichever one you would find most challenging.
8 th May 2023	Romeo and Juliet The Sign of Four Poetry – London, War Photographer, Storm on the Island	Attempt past papers in timed conditions. Learn the 'story' of each poem, structural features and one or two key quotes.	Look at the folders on Edulink called ROMEO AND JULIET / THE SIGN OF FOUR and search for the past paper section. Choose a past question for each text and attempt it. Plan before you start and assess your work using the mark scheme. Allow yourself 50 minutes for each question. See the folder on Edulink called POETRY ANTHOLOGY for resources, including notes on each poem with key quotes selected for you and analysed. Create a mindmap for each poem or a set of flash cards to help you learn the key information. Read your mindmap/flash cards and then try to recreate the key information from memory. You could make use of Mr Bruff's videos on his Youtube channel if this helps, or the resources on BBC Bitesize. Look at the past papers in the revision folder and plan an answer to whichever one you would find most challenging.
15 th May 2023 <u>ENGLISH LIT PAPER 1 – 17.5.23</u>	PAST PAPERS PAPER 1 LIT An Inspector Calls Poetry	Look over a range of past papers for English Literature Paper 1 so that you are prepared for the kind of questions you may encounter in Wednesday's exam. Use your mindmaps/flash cards and revision notes to plan and then attempt a past paper.	Go on Edulink and find the folder called ENGLISH LITERATURE PAPER 1 PAST PAPERS. Look at the questions for The Sign of Four and Romeo and Juliet. Choose one paper and plan an answer for each question. Look at the folders on Edulink called AN INSPECTOR CALLS / POETRY ANTHOLOGY and search for the past paper section. Choose a past question for each text and attempt it. Plan before you start and assess your work using the mark scheme. Allow yourself 50 minutes for each question.

"You can perform miracles by touching the hearts of those entrusted to your care."

22 nd May 2023 <u>ENGLISH LIT PAPER 2 24.5.23</u>	PAST PAPERS PAPER 2 LIT	Look over a range of past papers for English Literature Paper 2 so that you are prepared for the kind of questions you may encounter in Wednesday's exam.	Go on Edulink and find the folder called ENGLISH LITERATURE PAPER 2 PAST PAPERS. Look at the questions for An Inspector Calls and the poetry. Choose one paper and plan an answer for each question.
29 th May 2023	English Language Paper 1	Look back at the notes you created for your character. Revise your character/their flashback by making notes about them before attempting a past paper where you 'drop' them into the story prompt/description. Attempt a full past paper in timed conditions. Use the mark scheme/model answer to assess your work.	Having completed the past paper, identify your weakest questions. Attempt another paper focusing on these questions only to develop your confidence. Look at the folder on Edunlink called ENGLISH LANGUAGE PAPER 1 PAST PAPERS to find the resources you need.
5 th June 2023 <u>PAPER 1 LANGUAGE 5.6.23</u>	English Language Paper 2	Attempt a full past paper in timed conditions. Use the mark scheme/model answer to assess your work.	Having completed the past paper, identify your weakest questions. Attempt another paper focusing on these questions only to develop your confidence. Look at the folder on Edunlink called ENGLISH LANGUAGE PAPER 2 PAST PAPERS to find the resources you need.
12 th June 2023 <u>PAPER 2 LANGUAGE 12.6.23</u>			

"You can perform miracles by touching the hearts of those entrusted to your care."

Year 11 GCSE Revision 2023			
Week beginning	Topics for revision	Re-visit work	Suggested activities
20 th March 2023	P1 Ecosystems	Components of an ecosystem Deciduous woodland Tropical rainforest Deforestation	Internet Geography revision mat Question on managing deforestation Question on rainforest adaptation Podcast
27 th March 2023	P1 Ecosystems	Hot Deserts Western Desert Case study Desertification	Internet geography recap sheet on hot deserts Model answer on challenges, opportunity and management in the hot desert
3 rd April 2023	P1 Rivers	Processes and landforms, upper, middle, lower course	Internet Geography recap sheet Case study – Boscastle How successful have river management strategies been Internet Geography re write and review on hard engineering
10 th April 2023	P1 Glaciation	Features of glacial deposition Glacial moraine	Internet Geography revision mat Internet Geography sheet on map skills
17 th April 2023	IEA	Prepare for paper 3	Prepare model answer for Paper 3
24 th April 2023	P1 Hazards	4 plate margins and associated hazards The 3 P'S	Internet Geography short questions Rewrite and review earthquakes and destructive plate margin
1 st May 2023	P1 Hazards	Case studies Nepal Christchurch	Internet Geography recap sheet Multiple choice on case studies Model answer recap for case studies
8 th May 2023	P1	Climate Change Cause, effects and mitigation	Podcast Recap and rewrite questions
15 th May 2023	P2	Energy UK Energy Mix Global energy insecurity	Internet Geography multiple choice booklet Recap Nepal HEP case study
22 nd May 2023	P2	Urban issues and challenges Liverpool Case study	Recap glossary of terms Recap model answers on Liverpool P2 practice questions
29 th May 2023	P2	Rio De Janeiro case study	Recap glossary of terms Recap model answers on Rio P2 practice questions
5 th June 2023	P2	Economic Geography Nigeria and UK	All recap sheets internet Geography Urbanisation Development indicators

"You can perform miracles by touching the hearts of those entrusted to your care."

			Nigeria UK Changing Economy
12 th June 2023	P3	Geographical skills IEA recpa	Internet Geography – what direction is the photographer facing A3 fieldwork sheets PPT on P3 and IEA

"You can perform miracles by touching the hearts of those entrusted to your care."

COMBINED SCIENCE (F)

All resources mentioned are either on Microsoft Teams or have been given to you in class. Complete the tasks each week for the selected topic and show your teacher to gain feedback and to make sure you are getting it right!

Year 11 GCSE Revision 2023			
Week beginning	Topics for revision	Re-visit work – these are the basics you need – not everything is listed here – use your PLC checklists for the full list of topics.	Suggested activities
20 th March 2023	Biology Topic 1: Cell Biology	Chromosomes, cell cycle & mitosis and stem cells	<u>SENECA LEARNING</u> 1. Access the correct course and tier for example – Combined Science Trilogy: AQA GCSE Foundation tier. 2. Select the topic you want to work though and complete the activities as they arise. 3. Complete the end of topic questions. 4. Use the standardised assessment courses for each subject for extra exam practise. Complete a Mastery booklet and mark your answers using the mark scheme.
	Chemistry Topic 1: Atomic structure and periodic table	Periodic table, metals/non-metals, group 1, 0 and 7)	
	Physics Topic 1: Energy	Energy stores, energy changes in a system and power, national and global energy resources	
27 th March 2023	Biology Topic 2: Organisation	Blood, blood vessels, the heart, non-communicable diseases and cancer, digestive system, enzymes and factors affecting enzymes	Use the knowledge organisers alongside the PLC checklists to determine what you know and remember and colour code the knowledge red, orange and green. Focus on the red areas and fix those before moving onto the orange. Knowledge organisers and PLC checklists can be found on your class TEAMS page. Watch cognito videos or fuse school videos on the topics you want to revise. <u>GCSE POD</u> 1. Login. 2. Access the course: Combined Sciences. 3. Select the topics you want to work though.
	Chemistry Topic 2: Bonding, structure and the properties of matter	States of matter, state symbols, properties of ionic compounds and small molecules, polymers, giant covalent structures, metals and alloys, diamond, graphite, graphene and fullerenes	

"You can perform miracles by touching the hearts of those entrusted to your care."

	Physics Topic 2: Electricity	Circuit symbols, charge and current, current, resistance and potential difference, national grid	4. Complete the multiple-choice questions at the end of each pod. <u>REQUIRED PRACTICAL REVIEW</u> Type Malmsbury School Science videos in google and add the name of the required practical on the end. Watch the video and make notes of the key points. Then find a past paper question on this and mark your answers to check your understanding. <u>PAST PAPERS</u> Print past paper questions/mark schemes/examiners reports from the AQA website (look for Combined Science: Trilogy 8464): http://www.aqa.org.uk/subjects/science/gcse/combined-science-trilogy-8464/assessment-resources
3 rd April 2023	Biology Topic 3: Infection and response Chemistry Topic 3: Quantitative Chemistry Physics Topic 3: Particle Model of Matter	Infectious diseases, bacterial, viral, fungal and protist diseases, human defences, vaccination, antibiotics and drug development All chemistry calculations. Particle model of matter (with specific focus on density and changes of state)	
10 th April 2023	Biology Topic 4: Bioenergetics Chemistry Topic 4: Chemical changes Physics Topic 4: Atomic structure	Photosynthesis, respiration and exercise Reactivity of metals, extraction of metals, reactions of acids & electrolysis Radioactive decay and radiation, decay equations, half life and radiative contamination	
17 th April 2023	Biology Topic 5: Homeostasis and response	Endocrine system and hormones, hormones to treat infertility, and control of blood glucose	

"You can perform miracles by touching the hearts of those entrusted to your care."

	<p>Chemistry Topic 5: Energy changes</p> <p>Physics Topic 5: Forces</p>	<p>Endothermic, exothermic and reaction profiles</p> <p>Scalar and vectors, contact/non-contact forces, gravity & resultant force</p>	
24 th April 2023	<p>Biology Topic 6: Inheritance, variation and evolution</p> <p>Chemistry topic 6: The rate and extent of chemical change</p> <p>Physics Topic 6: Waves</p>	<p>Mitosis and meiosis, genetic inheritance, the stages of evolution, DNA, selective breeding, genetic engineering and classification</p> <p>Factors affecting rates, collision theory, catalysts & calculating rates, reversible reactions & equilibrium</p> <p>Electromagnetic waves - their types, properties and uses</p>	
1 st May 2023	<p>Biology Topic 7: Ecology</p> <p>Chemistry Topic 7: Organic chemistry</p> <p>Physics Topic 7: Magnetism and electromagnetism</p>	<p>Organisation of ecosystems, communities, biotic/abiotic factors, food chains and webs, carbon and water cycle, & waste management</p> <p>Carbon compounds as fuels/feedstock, crude oil</p> <p>Poles of a magnet, magnetic fields and electromagnetism, the motor effect</p>	

"You can perform miracles by touching the hearts of those entrusted to your care."

2023	Chemistry Topic 8: Chemical analysis	Purity, formulations and chromatography	
15 th May 2023	<p>First Combined Science exam is sat on 16th May – remember there are 5 more exams after this one for combined science .</p> <p>Chemistry Topic 9: Chemistry of the atmosphere and Chemistry Topic 10: Using resources</p>	<p>Composition and evolution of the Earth's atmosphere & how oxygen/carbon dioxide levels changed, atmospheric pollutants from fuels and carbon footprint</p> <p>Using the Earth's resources, sustainable development, potable water, waste water treatment, alternative methods of extracting metals</p>	
22 nd May 2023	Focus on the areas of weakness for each exam in order and use the strategies outlined and resources available to address any gaps still in your knowledge and understanding.		
29 th May 2023	Focus on the areas of weakness for		

"You can perform miracles by touching the hearts of those entrusted to your care."

	each exam in order and use the strategies outlined and resources available to address any gaps still in your knowledge and understanding.		
5 th June 2023	Focus on the areas of weakness for each exam in order and use the strategies outlined and resources available to address any gaps still in your knowledge and understanding.		
12 th June 2023	Focus on the areas of weakness for each exam in order and use the strategies outlined and resources available to address any gaps still in your knowledge and understanding.		

REQUIRED PRACTICALS TO MAKE A FOCUS OF YOUR REVISION

Biology Required practical activity 1: Microscopy

Biology Required practical activity 2: Osmosis

Biology Required practical activity 3: use qualitative reagents to test for a range of carbohydrates, lipids and proteins.

Biology Required practical activity 4: investigate the effect of pH on the rate of reaction of amylase enzyme.

Biology Required practical activity 5: investigate the effect of light on the rate of photosynthesis of an aquatic plant such as pondweed.

Biology Required practical activity 6: Human reaction time.

Biology Required practical activity 7: measure the population size of a common species in a habitat. Use sampling techniques to investigate the effect of a factor on the distribution of this species.

Chemistry Required practical activity 8: preparation of a pure, dry sample of a soluble salt from an insoluble oxide or carbonate, using a Bunsen burner to heat dilute acid and a water bath or electric heater to evaporate the solution.

Chemistry Required practical activity 9: investigate what happens when aqueous solutions are electrolysed using inert electrodes. This should be an investigation involving developing a hypothesis.

Chemistry Required practical activity 10: investigate the variables that affect temperature changes in reacting solutions such as, e.g. acid plus metals, acid plus carbonates, neutralisations, displacement of metals.

Chemistry Required practical activity 11: investigate how changes in concentration affect the rates of reactions by a method involving measuring the volume of a gas produced and a method involving a change in colour or turbidity. This should be an investigation involving developing a hypothesis.

Chemistry Required practical activity 12: investigate how paper chromatography can be used to separate and tell the difference between coloured substances. Students should calculate R_f values.

Chemistry Required practical activity 13: Water purification.

Physics Required practical activity 14: an investigation to determine the specific heat capacity of one or more materials. The investigation will involve linking the decrease of one energy store (or work done) to the increase in temperature and subsequent increase in thermal energy stored.

Physics required practical activity 15: Resistance.

"You can perform miracles by touching the hearts of those entrusted to your care."

Physics Required practical activity 16: use circuit diagrams to construct appropriate circuits to investigate the I–V characteristics of a variety of circuit elements, including a filament lamp, a diode and a resistor at constant temperature.

Physics required practical activity 17: Density.

Physics required practical activity 18: Force and extension.

Physics required practical activity 19: Acceleration.

Physics required practical activity 20: Waves – speed of waves in a ripple tank and speed waves travelling through a solid.

Physics Required practical activity 21: investigate how the amount of infrared radiation absorbed or radiated by a surface depends on the nature of that surface.

"You can perform miracles by touching the hearts of those entrusted to your care."

COMBINED SCIENCE (H)

All resources mentioned are either on Microsoft Teams or have been given to you in class. Complete the tasks each week for the selected topic and show your teacher to gain feedback and to make sure you are getting it right!

Year 11 GCSE Revision 2023			
Week beginning	Topics for revision	Re-visit work – these are the basics you need – not everything is listed here – use your PLC checklists for the full list of topics.	Suggested activities
20 th March 2023	Biology Topic 1: Cell Biology Chemistry Topic 1: Atomic structure and periodic table Physics Topic 1: Energy	<i>Chromosomes, cell cycle & mitosis and stem cells</i> <i>States of matter, state symbols, properties of ionic compounds and small molecules, polymers, giant covalent structures, and metals & alloys</i> <i>Energy stores, energy changes in a system and power</i>	<u>SENECA LEARNING</u> 1.
